SAP Business One & Shopping cart Elite Integration

Available Integration Touchpoints

Customer Sync

➔ New Customer

Web customer can register online. All the registration information like account information, contact information, billing & shipping address, etc. will be synchronized to SAP Business One business partner master data.

➔ Existing Customer

Any existing web customer details can be downloaded to SAP Business One automatically in real time.

Stock Sync

➔ Stock Updates which happen in SAP Business One through Purchase or Production Process will be synced back to Shopping Cart Elite

➔ APPSeCONNECT allows different combination of Stock Sync from SAP B1 to Shopping Cart Elite in In Stock, Committed and Ordered Quantities. Example:

- In Stock – Committed + Ordered
- In Stock – Committed

Order Sync

- Web Sales Orders placed in Shopping Cart Elite will be synced to SAP Business One as a Sales Order.

- Taxes and Shipping Charges will be properly mapped between eCommerce and ERP.

- Even the Guest Checkout Sales Orders can be synced to SAP B1 and can be assigned against a Default Customer for Order Processing.

Delivery Sync

- Deliveries created in SAP Business One against Sales Orders will be synced to Shopping Cart with all shipping details.

What our customers say...

For us, the **"set it and forget it"** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.
