

The SAP Business One logo is displayed inside a white circle. It features the word "SAP" in a bold, black, sans-serif font, followed by "Business" in a smaller, lighter font, and "One" in a larger, bold, orange font.The Appseconnect logo, consisting of a white cloud icon with a circular arrow inside, followed by the text "APPS@CONNECT" in a white, sans-serif font.

SAP Business One & Shipstation Integration

www.appseconnect.com

Available Integration Touchpoints

Customer Sync

- Add new customers to SAP B1 coming from ShipStation with specific details like name, addresses, billing and shipping addresses, customer code etc.
- Updates the customer which has already synced to SAP B1. Suppose after adding a customer if some changes required on that particular customer so it gets updated after executing the touchpoint.

Product Sync

- Add new products to SAP B1 coming from ShipStation with specific details like SKU, weight, item cost, price, dimension, tariff code, country of origin and description of that product.
- Updates the product which has already synced to SAP B1. Suppose after adding a product certain changes are required and it also needed to be in SAP. Then executing this touchpoint results get automatic updated of the changed fields in SAP B1.

Order Sync

- Add new orders to SAP B1 coming from ShipStation with specific details like bill to & ship to addresses, items, amount paid, tax amount, shipping amount & the important feature is that it will also tell the store information from which the order came from.
- Updates the order which has already synced to SAP B1. Suppose after adding an order to SAP, you want to make some changes on that particular order like changing the item, delivery date or prices etc.
- Suppose an order has been placed and it also added to the SAP B1, but now the order need to be pulled off. So cancellation of order from ShipStation gets automatically cancelled in SAP B1 by executing this touchpoint.

Seamless integration between your apps

Automate manual processes

APPSeCONNECT makes life easier for you. Seamlessly connect all your business applications and save time by automating manual processes.

Focus on Profitability

Why spend hours in doing manual work that can be automated. Instead, focus on your core business and increase your revenue.

What our customers say...

For us, the **“set it and forget it”** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.

Terence McDevitt

Project Manager
Premier Research Labs
