

The SAP Business One logo is displayed inside a white circle on the left side of the diagram. It features the word "SAP" in a bold, black, sans-serif font, followed by "Business" in a smaller, lighter font, and "One" in a larger, bold, orange font.The Shopware logo is displayed inside a white circle on the right side of the diagram. It features a blue circular icon with a white 'S' shape inside, followed by the word "shopware" in a lowercase, blue, sans-serif font.The Appseconnect logo consists of a white cloud icon with a circular arrow inside, followed by the text "APPS@CONNECT" in a white, sans-serif font.

APPS@CONNECT

Connect SAP Business One with Shopware

www.appseconnect.com

Available Integration Touchpoints

Customer sync:

- Data from a new customer registration in Shopware will be synced to SAP Business One and a Business Partner Master Data document will be generated. Changes made in billing/shipping address will also be synced back into SAP.

Product Sync

- Items can be listed in Shopware from SAPB1 Item Master Data with pricing and all other details. In case items are already listed they can be mapped based on the Item number/SKU. Updates from SAPB1 will also be reflected in Shopware.

Stock sync:

- All changes to product inventory levels will be monitored in SAPB1 and updates will be synced to Shopware to avoid "out of stock" scenarios.

Order sync:

- Orders placed on Shopware will be instantly converted into SAP B1 Sales Orders helping you prevent order aging. Exact value mapping of tax and shipping charges are ensured for proper order total calculation. Guest checkouts on Shopware will also be synced back to SAP B1.

Delivery Sync:

- Shipping details along with tracking id will be seamlessly synced to Shopware from SAP Business One Delivery document. At every step the Order status will be updated in Shopware from SAP. Statuses can be mapped as per customer requirement

Invoice sync:

- After shipment has been created, Invoice can be generated from SAP to Shopware and it will update the Web Order's Payment Status. Statuses can be mapped as per customer requirement.

Seamless integration between your apps

Automate manual processes

APPSeCONNECT makes life easier for you. Seamlessly connect all your business applications and save time by automating manual processes.

Focus on Profitability

Why spend hours in doing manual work that can be automated. Instead, focus on your core business and increase your revenue.

What our customers say...

For us, the “set it and forget it” aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.
