 APPSECONNECT

# SAP Business One & Bigcommerce Integration

[www.appseconnect.com](http://www.appseconnect.com)

# Available Integration Touchpoints

## Customer Sync

- New customer's account, contact information, billing and shipping address will be synced from BigCommerce to SAP Business One Business Partner Master Data.
- Existing web customer's details are downloaded to SAP Business One automatically.
- Update Customer details When Customer records are updated in BigCommerce, corresponding SAP Business One records are also updated.

## Product Sync

- List SAP Business One items in the e-commerce web store as BigCommerce Products. BigCommerce SKU and SAP Business One Item Code is mapped for the data sync process.
- Download existing web products to SAP Business One Item Master Data records.
- When Products are updated in one platform, these updates will be synced to the corresponding platform also.
- When Product Prices are updated in SAP B1, APPSeCONNECT will update the corresponding Product Prices in BigCommerce too.

## Inventory Sync

- ➔ Maintain Exact Stock level : As Purchase and Production Cycle is only associated with ERP, so Stock can be updated from SAP B1 to BigCommerce to maintain exact inventory level in the eCommerce store.
- ➔ Variations of Stock : APPSeCONNECT can be configured to support different levels of inventory sync as per business requirement
  - In Stock-Committed
  - In Stock
  - In Stock- Committed + Ordered

## Order Sync

- ➔ Web Sales Orders placed in BigCommerce will be synced to SAP Business One as Active Sales Order via APPSeCONNECT.
- ➔ Line items, taxes, discounts associated with the Web Order will be also synced to SAP B1 Sales Order.

## Shipment Sync

- For Order Fulfillment, when Delivery is created in SAP Business One against Web Order, it will be synced to BigCommerce and will update the Web Order status.
- The Shipment Tracking ID can be also synced to BigCommerce so that customers can track their order location.

## Invoice Sync

- BigCommerce Invoices will be synced to SAP B1 A/R Invoice via APPSeCONNECT.
- Line items, taxes, discounts associated with the Web Invoice will be also synced to SAP B1 A/R Invoice.

# Seamless integration between your apps

## Automate manual processes

APPSeCONNECT makes life easier for you. Seamlessly connect all your business applications and save time by automating manual processes.

## Focus on Profitability

Why spend hours in doing manual work that can be automated. Instead, focus on your core business and increase your revenue.

---

## What our customers say...

For us, the **“set it and forget it”** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.

### Terence McDevitt

Project Manager  
**Premier Research Labs**
