

Microsoft Dynamics NAV & Prestashop Integration

www.appseconnect.com

Available Integration Touchpoints

Customer Sync

- Web customers can register online. All registration information like account information, contact information, billing & shipping address, etc. will be synchronized to Microsoft Dynamics NAV Customer Card.
- Web customers can register online. All registration information like account information, contact information, billing & shipping address, etc. will be synchronized to Microsoft Dynamics NAV Customer Card.

Item Sync

- List Microsoft Dynamics NAV items in the Prestashop eCommerce store.
- Stock Update from Microsoft Dynamics NAV to maintain the exact inventory level in the eCommerce store. APPSeCONNECT can be configured to support different levels of Inventory sync as per requirement.
- Updates made in product details on Prestashop can be instantly made to be reflected in Microsoft Dynamics NAV Item Card.

Order Sync

- ➔ All the Prestashop sales orders placed by the web customer will instantly be converted into Microsoft Dynamics NAV Sales Orders.
- ➔ All the web sales orders placed by the guest customers will also be transformed into Microsoft Dynamics NAV Sales Orders.
- ➔ Web Orders can be synced back to Microsoft Dynamics NAV as Sales Order, providing an opportunity to Dynamics NAV User for an Order Approval Process, checking payment, stock, and even customer validation process. With APPSeCONNECT, business owners can even choose which Web Orders will sync back to NAV through a Dynamic Mapping screen.
- ➔ Exact Value Mapping of Tax and Shipping Charges are ensured for proper Order Total calculation while converting web orders into Microsoft Dynamics NAV Sales Orders.
- ➔ APPSeCONNECT fully supports synchronization of these discounts to Microsoft Dynamics NAV Sales Order and maintains the same order value both in Prestashop and NAV.

Shipment Sync

- ➔ **Shipping method and Shipment charges**
eCommerce shipping method and shipment charges will be fully mapped with Microsoft Dynamics NAV shipping method and freight, through APPSeCONNECT.

➔ **Shipment tracking number**

Microsoft Dynamics NAV user can put the shipment tracking no after posting a synced sales order in NAV and it will be synced to Prestashop. This tracking number will be available in the storefront after a successful sync. Thus, web customers can track his/her shipments using this tracking number.

Additional features:

- ➔ APPSeCONNECT has the full capability to connect multiple Prestashop websites with Microsoft Dynamics NAV.

Seamless integration between your apps

Automate manual processes

APPSeCONNECT makes life easier for you. Seamlessly connect all your business applications and save time by automating manual processes.

Focus on Profitability

Why spend hours in doing manual work that can be automated. Instead, focus on your core business and increase your revenue.

What our customers say...

For us, the **“set it and forget it”** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.

Terence McDevitt
