Microsoft Dynamics NAV & Woocommerce Integration

Available Integration Touchpoints

Customer Sync

- Newly registered webstore customers with account details, contact information, billing and shipping addresses, etc. are synced to Microsoft Dynamics NAV Customer Card.

- Existing webstore customers' details are re-created in Microsoft Dynamics NAV Customer Card automatically.

- When orders are placed by Guest Customers, the connector can be configured to sync their contact and address information to Microsoft Dynamics NAV for easy tracking. Further marketing activities can be planned for them using the contact information.

- When a customer updates their details in the store, they are automatically updated in Microsoft Dynamics NAV.

Product Sync

- Listing of Items from Microsoft Dynamics NAV Item Card to the WooCommerce store as Simple Products.

- Stock Update to maintain accurate inventory levels between Microsoft Dynamics NAV and Webstore.

- Products details will be updated in webstore, for any changes in Microsoft Dynamics NAV.

Order Sync

- Online Sales Orders placed by registered customers are synced to Microsoft Dynamics NAV Sales Orders.

- Online Sales Orders placed by guest customers are converted to Microsoft Dynamics NAV Sales Orders.

- The exact value of Taxes and Shipping Charges are mapped to ensure correct order total calculation while converting web orders into Microsoft Dynamics NAV Sales Orders.

- APPSeCONNECT supports synchronization of discounts to Microsoft Dynamics NAV and ensures the same order value in both Microsoft Dynamics NAV and WooCommerce

Shipment Sync

- Posted Sales Shipments created in Microsoft Dynamics NAV against Sales Orders will be synced to WooCommerce. The web order status changes from 'pending/processing' to 'shipping/complete'.

- Shipment tracking no. can be updated in Microsoft Dynamics NAV Sales Shipment and it will be synced to WooCommerce, allowing the customer to track his shipment.

What our customers say...

For us, the **"set it and forget it"** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.
