# Available Integration Touchpoints

## Customer Sync

- Web customers can register online. All registration information like account information, contact information, billing & shipping address, etc. are synced from Swell eCommerce to Microsoft Dynamics NAV Customer Card.
- Existing web customer details are synced to Microsoft Dynamics NAV Customer Card.

## Product Sync

- Enlist Microsoft Dynamics NAV items in the Swell eCommerce store with all details.
- Categories and subcategories in Microsoft Dynamics NAV are synced to Swell eCommerce along with pricing, weight, description, a short description and other specifications.
- Product prices in Microsoft Dynamics NAV are synced as the standard item price in Swell eCommerce.
- Updates and modifications in item details are also synced to Swell eCommerce from Microsoft Dynamics NAV.

## Inventory Sync

- Microsoft Dynamics NAV warehouses are fully mapped with the Swell eCommerce website. Inventory from any desired warehouse or a cumulative stock from multiple warehouses in Microsoft Dynamics NAV is synced to Swell eCommerce through APPSeCONNECT Dynamic Mapping Interface.

# Available Integration Touchpoints

- ➔ Product Stock is synced from Microsoft Dynamics NAV to Swell Commerce, with the options to choose multiple variants of combinations:
  - In Stock-Committed
  - In Stock
  - In Stock- Committed + Ordered

## Sales Order Sync

- ➔ All the Swell eCommerce Sales Orders placed by the web customers are instantly synced as Microsoft Dynamics NAV Sales Orders.  
(APPSeCONNECT decides the following aspects before putting it in Microsoft Dynamics NAV:
  - Determining the status of the order.
  - All the customer details, item details, total order cost, customer payment method, tax information, order number.
  - Exact value mapping of tax and shipping methods for proper order calculation.)

## Fulfillment Add

- ➔ Once Shipment/Order fulfillment is created in Microsoft Dynamics NAV, web users can instantly get the updated information and Shipment Tracking no. on Swell eCommerce by viewing the web order status which will be changed from 'unfulfilled' to "fulfilled".

## What our customers say...

For us, the **“set it and forget it”** aspect of the APPSeCONNECT is the best part. We needed something that could run on its own and just work, APPSeCONNECT does this quite well.
