Microsoft Dynamics NAV and PrestaShop Integration

Synchronization Points

Customer

- Web customers can register online. All registration information like account information, contact information, billing & shipping address, etc. will be synchronized to Microsoft Dynamics NAV Customer Card.

- As per business requirements, the connector can be configured to sync Guest Customer information

Items

- List Microsoft Dynamics NAV items in the PrestaShop eCommerce store.

- Stock Update from Microsoft Dynamics NAV to maintain the exact inventory level in the eCommerce store. APPSeCONNECT can be configured to support different levels of Inventory sync as per requirement.

- Updates made in product details on PrestaShop can be instantly made to be reflected in Microsoft Dynamics NAV Item Card.

Order

- All the PrestaShop sales orders placed by the web customer will instantly be converted into Microsoft Dynamics NAV Sales Orders.

- All the web sales orders placed by the guest customers will also be transformed into Microsoft Dynamics NAV Sales Orders.

- Web Orders can be synced back to Microsoft Dynamics NAV as Sales Order, providing an opportunity to Dynamics NAV User for an Order Approval Process, checking payment, stock, and even customer validation process. With APPSeCONNECT, business owners can even choose which Web Orders will sync back to NAV through a Dynamic Mapping screen.

- Exact Value Mapping of Tax and Shipping Charges are ensured for proper Order Total calculation while converting web orders into Microsoft Dynamics NAV Sales Orders.

- APPSeCONNECT fully supports synchronization of these discounts to Microsoft Dynamics NAV Sales Order and maintains the same order value both in PrestaShop and NAV.

Synchronization Points

Shipment

- **Shipping method and Shipment charges**
  eCommerce shipping method and shipment charges will be fully mapped with Microsoft Dynamics NAV shipping method and freight, through APPSeCONNECT.

- **Shipment tracking number**
  Microsoft Dynamics NAV user can put the shipment tracking no *after posting a synced sales order in Microsoft Dynamics NAV* and it will be synced to PrestaShop. This tracking number *will be* available in the storefront *after a successful sync*. Thus, web customers can track his/her shipments using this tracking number.

Some unique features:

- APPSeCONNECT has the full capability to connect multiple PrestaShop websites with Microsoft Dynamics NAV.

Transform the way you work and improve business efficiency!

APPSeCONNECT-led business processes streamline your business workflow and help you expand customer and employee satisfaction amplifying revenue numbers and growth.

SAVE TIME AND EFFORT
Seamlessly connect business-critical applications and save huge amount of time and effort by automating business processes

BOOST PRODUCTIVITY
Eliminate the need for manual data entry, resulting reduced risk of errors, increased productivity, quality and a happier workforce

FOCUS ON PROFITABILITY
Streamlined business processes lets you focus on what matters the most: increasing customer satisfaction, revenue, growth!

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.
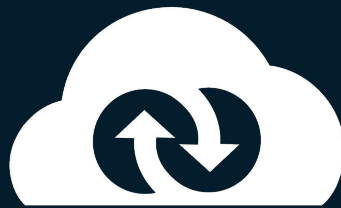

Erika Weihmayer
Prana Biovegan

The product is easy to work with. Throughout the process, APPSeCONNECT was very accommodating of our specific requests.
