

SAP Business One and 3dcart Integration

SAP BUSINESS ONE AND 3DCART INTEGRATION

Synchronization Points

Customer

- **Customer Sync (Realtime)**- Web customer can register online. All the registration information like account information, contact information, billing & shipping address, etc. will be synchronized to SAP Business One Business Partner Master Data.

Item

- **Product Upload(Add)** – New Products created, and existing products can be synced in both directions. 3dcart SKU and SAP Business One Item Code is mapped for the data sync process.
- **Product Upload (Update)**- Existing Product in SAP Business One is updated and synced to 3dcart.
- **Gift certificated upload** – Gift card in SAP Business One is synced into 3dcart. Customer can use the “from” and “to” section to buy and send the card.
- **Master Data Category** – it will sync all product category details from 3dcart to SAP Business One.
- **Product ID Linkage** – When we have a certain product in 3dcart with a specific SKU and the same product is in SAP Business One with a specific Item No., then in order to match if both the product is same this particular touchpoint is used.

Order

- **Order Edit to Add Item** – If an order is placed and customer wants to add another item to that order, this order can be edited, and item can be added and sync from SAP Business One to 3dcart.
- **Order Download** – Web Orders placed in 3dcart will be downloaded to SAP Business One as Active Sales Order; tax, discount calculated in Web Order will also be mentioned within the ERP Sales Order.
- **RMA Download** – it basically refers to Return Merchandise Authorization. When a product is to be returned, all the details of the product is synced from 3dcart to SAP Business One as sales returns.
- **Invoice Download** – Shipment created in 3dcart will be downloaded to SAP Business One as A/R Reserve invoice.

SAP BUSINESS ONE AND 3DCART INTEGRATION

Synchronization Points

Stock

- **Product Stock Update** – As Purchase and Production Cycle is only associated with ERP, so Stock Updated through these valid business cycles within ERP system will be synced to 3dcart and update the Web Inventory.

Payment

- **Payment Download** – 3dcart being integrated with number of payment gateways, creates a payment transaction id for each time the payment is made. No matter in which mode the payment is done, the Payment transaction id is synced to SAP Business One.

Shipment

- **Shipment Download** – Shipment created in 3dcart will be downloaded to SAP Business One as delivery document.

Transform the way you work and improve business efficiency!

APPSeCONNECT-led business processes streamline your operational workflow and help you expand customer and employee satisfaction amplifying revenue numbers and growth.

SAVE TIME AND EFFORT

Seamlessly connect business-critical applications and save huge amount of time and effort by automating business processes

BOOST PRODUCTIVITY

Eliminate the need for manual data entry, resulting reduced risk of errors, increased productivity, quality and a happier workforce

FOCUS ON PROFITABILITY

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.

Erika Weihmayer
Prana Biovegan

The product is easy to work with. Throughout the process, APPSeCONNECT was very accommodating of our specific requests.
