SAP Business One and BambooHR Integration

Synchronization Points

Employee Upload

Employees saved in BambooHR (Human Resource Software as a Service) will be synced to SAP Business One Employee Master Data under the Human Resource section with all details such as Employee Name, Address, all personal and contact details, all job information and compensation details.

Employee Download

Employees created in SAP Business One under the Human Resource section along with the existing employee details maintained in the ERP can be synced back to BambooHR. All the mandatory fields with the required details of that employee should be mentioned for the sync of an employee from SAP Business One to BambooHR.

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.
