SAP Business One and BigCommerce

APPS e CONNECT

Synchronization Points

SAP Business One and BigCommerce Integration

B2C

Sales Order

- Newly placed B2C sales orders on BigCommerce will sync to SAP Business One as Sales Orders, created against a set Business Partner. The SAP B1 Sales Order will include:

  o Item/Article details
  o Billing and shipping address
  o Calculated tax
  o Shipping charges
  o Discounts

  Tax, shipping charges, and discounts can be configured at the line level or document level within the SAP B1 Sales Order.

Payment

- Online payments made in BigCommerce will create an A/R Reserve Invoice and an Incoming Payment in SAP Business One, including the online payment transaction ID for proper payment reconciliation.

Item

- Item Master Data from SAP Business One can be selectively synced to BigCommerce as Simple and Variant Products.

- A set pricelist in SAP B1 will act as the base price in BigCommerce, and item updates will sync accordingly.

Synchronization Points

SAP Business One and BigCommerce Integration

Inventory

- One or multiple warehouses in SAP Business One can be mapped to corresponding inventory locations in BigCommerce for stock updates.

- Stock availability can be synced using one of the following combinations:

  o In stock
  o In stock – committed
  o In stock – committed + ordered

Shipment

- Deliveries processed in SAP Business One, along with shipment tracking numbers, will update the BigCommerce web order status and add the tracking number to BigCommerce.

B2B

All features available for B2C (order, payment, item, stock, shipment) also apply to B2B.

Sales Order

Offline B2B orders created in SAP Business One will sync to BigCommerce against the B2B customer.

Synchronization Points

SAP Business One and BigCommerce Integration

Customer

- B2B customers in SAP Business One (Company -> Contacts) can be mapped and synced bidirectionally with BigCommerce B2B (Company -> Contacts).

Pricelist

- SAP Business One pricelists can be mapped to BigCommerce B2B pricelists, ensuring customer-specific pricing in BigCommerce B2B.

Invoices And Payment

- B2B customer invoices generated in SAP Business One can be synced to BigCommerce Enterprise B2B Bundle for online payment.

- Online payment information will sync back to SAP B1, creating an Incoming Payment.

Transform the way you work and improve business efficiency!

APPSeCONNECT-led business processes streamline your business workflow and help you expand customer and employee satisfaction amplifying revenue numbers and growth.

Save Time and Effort

Seamlessly connect business-critical applications and save huge amount of time and effort by automating business processes

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.

Erika Weihmayer
Prana Biovegan

The product is easy to work with. Through out the process, APPSeCONNECT was very accommodating of our specific requests.
