SAP S/4HANA and Amazon Seller Central Integration

Synchronization Points

SAP S/4HANA and Amazon Seller
Central Integration

FBA

📜 Order

- Newly placed web orders on Amazon will be synced to SAP S/4HANA under a default or one-time customer with all the following details:

  - Item details
  - Item price
  - Taxes & Discounts
  - Shipping charges
  - Billing and shipping address

Item

- The Item Master in SAP S/4HANA will be mapped with the Amazon Items using the ASIN number.

- Item information updates and/or price updates in the product will be synced from SAP S/4HANA to Amazon and will be reflected within the Amazon product catalogue.

🏠 Inventory / Stock Transfer

- For inventory/stock transfer from merchant to Amazon Fulfillment Center, merchant will have to create a Shipment in Amazon Seller Central FBA Account.

- Based on the Shipment in Amazon, APPSeCONNECT will create an automatic STO (Stock Transfer Order) in SAP S/4HANA, simulating stock transfer from physical to virtual plant.

- Alternatively, APPSeCONNECT can also create a Consignment Order in SAP instead of a Stock Transfer Order.

Inventory

- In Amazon FBA model, Amazon manages the merchant's inventory. APPSeCONNECT will provide a Daily FBA Inventory Report with SKU-wise details such as:

- Opening Inventory in Amazon Seller Central
- STO Quantity
- Actual Amazon delivered quantity
- Ordered Quantity
- Returns
- Calculated Amazon Inventory
- Present Amazon Inventory
- Difference

Fees and Commissions

- Amazon collects various fees and commissions against each merchant order and charges towards item listing, storage, shipping, etc. These fees, commissions and refunds to the customer are reported to the merchant in each 14 days payment adjustment cycle.

- When orders are synced from Amazon to SAP S/4HANA, APPSeCONNECT syncs elements like Amazon Fees, FBA charges, and miscellaneous fees as Condition Types within the orders.

- When periodic reconciliation is done by Amazon, APPSeCONNECT provides a report which takes consolidated transaction details from Amazon for the 2-week period and runs it against each Amazon Order created in SAP within this period. It will highlight the matching entries and will show the differences in reconciliation, if any, so that the accounting clerk can investigate it further.

Boost Productivity

Eliminate the need for manual data entry, resulting reduced risk of errors, increased productivity, quality and a happier workforce

Maximize Growth

Streamlined business processes lets you focus on what matters the most: increasing customer satisfaction, revenue, growth!

What our customers say...

PRANA ORGANIC

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.

Erika Weihmayer
Prana Biovegan

LUMI NOX SWISS MADE **Luminox**

The product is easy to work with. Through out the process, APPSeCONNECT was very accommodating of our specific requests.
