NetSuite and Kibo Commerce Integration

APPSeCONNECT

Integration Endpoints

NetSuite and Kibo Commerce Integration

Customer

Add / Update

- New customers registered on Kibo Commerce website will be synced to NetSuite, with all the details such as billing & shipping address, customer information, email ID, phone number, etc.

- Since Customer sync works bidirectionally, any updates made to a customer in NetSuite will be synced to Kibo Commerce with all the details, and vice versa.

Product

Add / Update

- Products listed in NetSuite will be synced as Products under Catalog in Kibo Commerce. The Item WebID will be synced back to NetSuite from Kibo Commerce.

- Since Product sync works bidirectionally, updates made to existing products with details in NetSuite will also be synced to Kibo Commerce.

- Updates made to any product in NetSuite (where product is already available in Kibo Commerce), the details will be synced to Kibo Commerce as well.

Integration Endpoints

NetSuite and Kibo Commerce Integration
