

BigCommerce Enterprise Bundle B2B and SAP Business One Integration

Integration Endpoints

BigCommerce Enterprise B2B Bundle and SAP Business One Integration

B2C Customers (Add/Update)

Both B2B and B2C customers will be segregated by pre-defined customer groups in BigCommerce and SAP Business One.

- New registered customers on BigCommerce will be synced to SAP Business One with all the details such as Name, Phone number, email ID, shipping and billing address, etc. In this case, email ID will be considered as a unique identifier in pulling the data.
- Any updates made to existing customers in BigCommerce will also be synced to SAP Business One.

B2B Customers (Add)

Both B2B and B2C customers will be segregated by pre-defined customer groups in BigCommerce and SAP Business One.

- New registered B2B company, Contact Person Accounts and Sales Reps will be synced to BigCommerce from SAP Business One with all the details.
- In case of Sales Reps, APPSeCONNECT will identify the associated Business Partner Master in SAP Business One and sync Sales Reps to BigCommerce Bundle B2B as Admin.

Product (Add/Update)

- Items in SAP Business One will be synced to BigCommerce Bundle B2B as Products with all the default details.
- Any updates made to items in SAP Business One will also be synced to BigCommerce.

Integration Endpoints

BigCommerce Enterprise B2B Bundle and SAP Business One Integration

Price

- Multiple Pricelists allocated to Customers/Companies in SAP Business One will be synced and accordingly mapped in BigCommerce Bundle B2B.

Inventory

- Inventory updates in SAP Business One will be synced to BigCommerce Bundle B2B to maintain exact inventory levels.
- The inventory is taken as the in-stock quantity available in the ERP warehouses within SAP Business One corresponding to the BigCommerce website.

Orders

- All B2C orders placed on BigCommerce will be synced to SAP Business One as Sales Order with details such as line items, users, shipping and billing addresses, payment methods, taxes and charges.
- For B2B orders, Order Add can be initiated from SAP Business One to BigCommerce Bundle B2B or vice versa with details such as line items, Company Accounts, shipping and billing addresses, payment methods, taxes and charges, since the integration is bidirectional.

Shipment

- Order fulfillment and shipment created in SAP Business One will be synced to BigCommerce Bundle B2B with the tracking ID. Web customers can track their shipments using this ID.

Transform the way you work and improve business efficiency!

APPSeCONNECT-led business processes streamline your business workflow and help you expand customer and employee satisfaction amplifying revenue numbers and growth.

Save Time and Effort

Seamlessly connect business-critical applications and save huge amount of time and effort by automating business processes

Boost Productivity

Eliminate the need for manual data entry, resulting reduced risk of errors, increased productivity, quality and a happier workforce

Maximize Growth

Streamlined business processes lets you focus on what matters the most: increasing customer satisfaction, revenue, growth!

What our customers say...

Without APPSeCONNECT, I don't think we could have grown our website to where it is now. In terms of what is out there in the market, it is the cheapest option that would deliver a reliable service.

Erika Weihmayer
Prana Biovegan

The product is easy to work with. Through out the process, APPSeCONNECT was very accommodating of our specific requests.

Victoria Schweistein
Lumondi Inc
